THIS valuable Medicine is composed principally of Herbs, the whose stimulating and penetrating properties, it is when applied instantaneously diffused through the whole system, allaying the most intense pain in a few minutes. It will have to state, when you will be convinced that no preparation ever offered to the public for the relief of the afflicted, possesses in so high a degree its perfect, unerring qualities. IMPORTANT INFORMATION TO INVENTORS.—The subscriber (late Agent of the U S Patent Office under the Act of 1837) determined to present advantages in applying for patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*) as paid back by others) will be refunded by him in case of failure to obtain a patent; and the withdrawal, through him, within thirty days after the rejection Caveats, Specifications, Assignments and all necessary papers and drawings, to procuring patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions and management of patents.

Inventors here not only can obtain their specifications on the most reasonable terms (generally about 30 per cent less than those of others in the profession) but from the services of the experience of twenty years practice has made to the Patent Office an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries besides being always a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents Copies of claims of any patent furnished by remitting *one dollar* Assignments recorded at Wash ington Patents in Great Britain, France, and other foreign countries secured through agents of the highest respectability

During the last 3 years of the term of Commissioner of Patents B H EDDY Esq, of Boston did business at the Patent Office of Solicitor for procuring Patents There were few (if any) persons acting in that capacity who had so much business before the Patent Office and there were none who stood higher in the estimation of the Commissioner, and the Clerks in the Patent Office. I regard Mr Eddy as one of the most skilful and successful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications into a form to secure them in the most early and favorable consideration at the Patent Office.

TUESDAY DEC. 11, 1855.

For Railroad, Steamboat, Stage, Express, and House Advertisements, see Fourth Page. For Bounty Land notice see First Page. For "City of Bangor" advertisement, see first page.

A PECULIAR VISION.—The Bath Tribune (Strait Whig organ) in reading the platform of the American party in Maine recently adopted, perceives indications of what it calls "national sentiments on the subject of slavery. The Tribune says

We are glad to perceive the K. N. party is taking national grounds upon the question of slavery, and congratulate its members that they have at last emerged from the slough of Bond and cut themselves forever aloof from the wily and unscrupulous politicians of the Republicanism.

The Tribune is very easily satisfied if from gether any consolation for slavery or for from nationalism from the resolutions of the American State Council of Maine order has taken no step backward in its opposition to slavery extension, and is, to-day, strongly opposed to hunkerism as it ever

Upon the questions now agitating the country, as touching slavery and its extension, State Council, at its session in Augusta last week, resolved as follows

That the action of the legislature, executive and judicial departments of the government ought to be controlled by the principle taught by the framers and purest interpreters of constitution—that *freedom is national and slavery is sectional.*

That to please for the country, and stability of the Union, must be sought by relieving general government—so far as its jurisdiction extends—*of all absorption with, and accountability for American slavery*

That the repeal of the Missouri Compromise was a gross violation of National faith and that no State erected upon any part of the territory consecrated to freedom by that compact, *ought ever to be admitted into the Union as a Slave State*

This is good Republican doctrine, and such as none of the democratic "nationals" men with whom the Tribune's party is in alliance, would dare to endorse for a moment. It is such doctrine as the Strait Whigs cannot tolerate, and still much as their alliance with the democratic party of this State. It is such doctrine as neither George Evans nor E. Wilder Farley, nor Abraham Sanborn, nor the Bangor Journal will, we venture to say, openly avow. Nor is such doctrine as they will ever maintain by their action and influence. If they should do so, they would at once forfeit their claim to "nationality," as nationality in politics is now understood for it the State of Kansas, or any other State or out of that territory should now apply for admission as a Slave State every "national" politician in the land would assume the position that Congress is bound to admit it. Democratic nationalists would defend such action on the principle of popular sovereignty notwithstanding that principle has been grossly outraged by the Missouri border ruffians in the case of Kansas and slavery introduced into the Territory and protected and fostered there by these very outrages. The Strait Whig "national leaders must either concede to the same doctrine, or cut loose from the alliance and either set up for themselves or join the Republicans on the main issues of the day.

ALL RIGHT.—The Bangor Journal has been eminently successful and timely in enforcing its claims to brotherhood with the National Democratic party. The last Bangor Democrat of to-day (1855), accepts to the fullest extent the papal ecclesiastical decree of the Journal for having prematurely called in question the democratic doctrine of squatter sovereignty and receives that paper with open arms into the democratic fold.

We quote from the Democrat

The article in our last headed with the query, Are the Strait Whigs for Popular Sovereignty? has been answered by the Bangor Journal as to remove any doubt that might be felt as to it being straight out for the free nationalist democratic doctrine of Popular Sovereignty. Its response is as frank and candid as it is courteous and able. * * *

We give, continues the Democrat, the closing paragraphs of the Journal's article, expressing such patriotic and noble sentiments in forcible and eloquent language

Maledicta die! Who ever before heard such astonishing admiration expressed by a democratic paper, for the political articles of a Whig sheet! But the Democrat no considers it Whiggism good democracy.

The Whig asks us if we are opposed to the admission of a slave State made from territory lorcibly free. With a blankee's privilege, we answer by asking the Whig if it is in favor of the restoration of the Missouri Compromise *Journal*

We are in favor of restoring all that was repealed. Refusing admission to Kansas as a slave State, is a practical restoration.

As to our question, we did not expect an answer, and do not now expect one.

LADIES' LEVEE.—The ladies of the Universalist Society will hold a Levee at Kenduskeag Hall (that is said to be the same now) on to-morrow evening. The entertainment will embrace vocal and instrumental music, tableaux, and refreshments. The Dirigo Quadrille Band is engaged for the occasion, and there will undoubtedly be a good time generally. Admittance, 50 cents for gentlemen, 25 cents for ladies

FATAL ACCIDENT. We learn that on Saturday evening, Mr Charles Bradley was instantly killed, at Waterville, by being thrown from a buggy, with which another buggy or wagon came in contact in the main street of that village. Mr. B fell upon his head with such terrible effect that life was extinct when he was taken up.

The people of Hallowell and of the opposite town of Chelsea, are agitating the subject of a bridge across the Kennebec at that point. The Augusta Bridge is two miles above, and the Gardiner Bridge four miles below.

LEGISLATIVE PAPERS.—We call the attention of our readers to the Prospectuses of the Tri-Weekly Mercantile Journal and the Tri Weekly Age in another column.

SABBATH SCHOOL.—The Children in this school were opened on Friday evening of last week, at the house of Mr. H. Hills, the Superintendent. The Teachers were present, all interested to see what their respective classes had contributed. The whole amount, including one or two incidental contributions, was two hundred and sixty dollars.

$30 was appropriated to Sabbath Schools in Kansas, $25 to the Sawyer Bond for destitute Sabbath Schools in Maine, $12 50 for the education of a Chinese child, and the remainder to various prominent benevolent objects.

The twenty-second anniversary of this School was held on the Sabbath evening following, in the church. A Report was made by the Secretary, Mr. E. F. Duren, and addresses by Mr. J. Thurston and J. E. Pond, Teachers in the School, and by the Pastor, Rev. J. Maltby.

The Scriptures were read, and prayer offered by Rev. De Forest. Singing by the choir of the Church, and the School.

The number of classes and Teachers is 16. Average attendance for the year, 244, (larger than during any previous year, except in 1846.) Largest attendance during the past year, 305 scholars, 15

The whole amount of contributions for benevolent purposes, including $38 from the Missionary Circle, and $40 from the Dorcas Society, is $367

FLOATING BATTERIES.—A London letter says that in connection with the intended operations of the allies for the ensuing year, much attention has been attracted to the probable efficiency of a vast fleet of floating batteries, of a construction similar to those which were first tried in the attack on Kinburn, and from which the shot of the enemy were found to roll off like marbles. According to statements lately published in Paris, the idea of them originated with Louis Napoleon. They are expensive, each of them costing £60 000. But it is contended that England and France should each build fifty, and that it would be real economy for both nations that is spend £3 000 000 to secure a decisive blow. A large number are believed to be present in course of construction, and there can be little doubt that enough to form a good fleet will be ready by the spring.

The new county which is to be petitioned for the present winter would embrace the towns of Union, Washington, Warren, Friendship, Cushing St George, Thomaston, St. Thomaston, Rockland and the Muscle Ridge Matinicus, Metinic and Green Islands from Lincoln and Hope Camden, Vinal Haven and North Haven from Waldo

It the county line projected is established Old Lincoln which in 1850 was next to Cumberland the most populous county in the State, numbering 74 000 souls would be cut down to 27,686 Waldo would be left with 10 050 and the new county would have 26 393.

A GALE OF WIND.—The severest blow of the season, occurred on Sunday evening, commencing with a snow storm in the afternoon and about 6 in the evening the wind changing to southeast, accompanied by a violent rain storm, and continuing until about midnight, when the wind again veered to southwest, and gradually died away, the weather remaining mild. There was some damage in a small way, to fences &c.

NEW RESTAURANT.—It will be perceived by the advertisement that Capt. Bickford, the well-known proprietor of pleasure delicacies, has in connection with Mr. F. E. Pendleton, opened a first class Restaurant at No. 14 in the new Market Building, where all kinds of meats, poultry, pastry, oysters &c. are cooked and served up to suit the taste of an epicure. They also furnish suppers or refreshments, to order for assemblies or parties.

In the House of Representatives of Pennsylvania, in 1833, while a bill granting pensions to certain revolutionary veterans was pending in that body, Mr. Matthias moved to add a gratuity of $40 to one Sarah Cross "the sweetheart of an old soldier"—and it was done

The N Y Post says that Mr. McDonald of Maine, did go to Washington in quest of the Secretaryship of the Senate, but not finding a single Senator willing to support him, he turned round and went home. Truly, the Post observes, "republics are ungrateful!"

A correspondent of the Bath Tribune states as a singular fact, and one which is a mighty commentary on our republican institutions, that when Hon. N. P. Banks, speaker of the House of Representatives of Massachusetts, and Gen Wilson was president of the Senate, the father of one of them had been for them with in the house of correction as a drunkard, and the other was born in a poor house!

Thirty persons were found, in our yesterday's paper as being exposed on the Half Way Rock, were rescued by the Revenue Cutter and landed at Harpswell. The names were J. Douglass and George Douglass. They were on a gunning excursion, and were obliged to remain on the rock Friday night, but were taken off early Saturday morning. In attempting to leave the rock their boat was stove by the breakers and capsized, and they came very near being drowned.

AID TO NORFOLK.—A letter-writer says that the contributions for yellow fever sufferers in Norfolk and Portsmouth have amounted to $310 000, of which Portsmouth received $80,000

NEW BANK IN NEW YORK.—The managers of the new Bank have determined to go on with a capital subscription of $2,000,000, payable in monthly instalments. They expect to go into operation in February or March.

There are now settled in Chicago county, Minnesota, 150 Swedish families, embracing in the aggregate about 700 souls—all industrious and worthy people. Large accessions are expected this season.

DEATH OF AN AGED PASTOR.—Rev. Corlton Hurd, after thirty-three years faithful service as pastor of the church in Fryeburg, Maine, now rests from his labors. He died Dec 7th, and is to be buried to-day, (Tuesday.)

Elder Knapp, formerly a famous revival preacher, is a farmer in the neighborhood of Rockford, Illinois, with a farm of 1200 acres stocked with cattle, hogs, horses, &c.

Slavery and Its Effects.

To the Editor of The New York Tribune.

SIR.—In a former communication I spoke of the degenerating influence which the institution of slavery exerts upon the whole white population of the South. The cause of my second apprehension is more visible upon the poorer classes than the rich. The former constituting a large majority of the population of this country, and wholly dependant on their labor for subsistence, feel the oppressive competition of the slave power more severely, and in more ways than their short communication can develop. While the evil was confined to its more congenial sphere, we slumbered in fine security against its ravages. Negro labor was then devoted to such druggery as white men willingly resigned. But like the encroachments of Pharaohs plagues, it has extended his conquests throughout the land, and consumes all the sources of the poor man's living. It has hunted the ingenious mechanic from town to town, until he finds a negro his rival in every department of mechanism. His rival has no family or public expenses to encounter. Hence he can do the work and drive every white mechanic from the workshop in spite of himself. For it is the few capitalists of the country who own all the negroes or nearly so. Of course the owners of the slaves will consult their own interest and give the preference to the slave in doing the work of the country.

The master they have wealth, yet his children are taught the art of throwing away upon negroes, and have contempt for the labor and laboring men, and of course dedicate their time and talent to profligacy, and mental and physical prostration. It is only in the country that I see the nose of contempt turned up at my brawny arm because it is well from hard labor. Why is this? It is because my vocation is that of a common slave. Who is this that bedecks my proffered subscription and for what? It is the whole of society that consumes and does not produce, and all because my calling has been disgraced by the slave. The poor of this country are thus driven from bad to worse. The mechanics have often met in secret council to devise means to repel the encroachments of slave labor from their rights, but lies yet the evil onwards. I have heard many plans suggested—some of which embraced even the incendiaries torch and open rebellion.

But these suggestions only betray the extreme opinstion that is now rising in every sensible mechanic's mind against the damnable curse which brings poverty to each of their homes.

As to our women, the wealthy are proud to boast of their ignorance in domestic affairs, and the poor are ashamed to deny theirs. What is the consequence of such Human folly? Ask our poverty stricken men. Ask the great number of beggars that are in this country enjoying the sweet comforts of bankruptcy, whence came their distress, and they will with candor attribute it to the follies consequent upon Slavery.

I am your obedient servant, A MECHANIC.

Montgomery, Ala., Nov. 3, 1855.

SANTA ANNA AND THE SEVEN MILLIONS.—A very singular fact in relation to the Mexican Legation at Washington, has been brought to light here within a few days. It seems that when Santa Anna received intelligence that the Mesilla treaty had been ratified and that the seven millions had been paid to Gen Almonte, and by him deposited in bank, he became seriously alarmed lest his Minister should prove to be a rascal as himself, and appropriate the money to his own purposes. The temptation, to his corrupt mind seemed so irresistable that he forthwith recalled Gen Almonte and sent a Minister's Commission by the same mail to Senor Arrangoiz, then Mexican Consul General at New York, who by this means became the trustee of the seven millions deposit. Arrangoiz as you know, availed himself of this opportunity to retain a commission of one per cent, or $70,000, for his services in handling the unexpected and large amount of specie—whereupon Santa Anna turned him out and repudiated Almonte. Singular to say, this transaction never became public, nor was it known to the Government of the United States until quite recently.—*Washington Correspondence of the N. Y. Times*

A correspondent of the Newark Daily Advertiser, writing from Rome, under date of Nov 8 says.

"By a recent Papal Brief, I learn that the Benedictine Monastery of St. Vincent de Leurbe in Pennsylvania, has been raised to the dignity of Abbey and the Rev. Boniface is named the first Abbe Mitre, (mitred abbot.) This institution was founded only nine years ago, by this same abbot, accompanied by fifteen associates, (friars,) and to-day he counts in his dependence on five Monastries and 150 Benedictines. The progress just now of the Romish Church in the United States is regarded here with more than usual satisfaction.

N. Y. PASSENGER AND BAGGAGE CO.—A greatly needed reform in that much abused city of New York, seems to be at hand. Strangers going there and coming away foot, will be enabled to escape the extortions of hack-driven. A company has been formed for the conveyance and transportation of passengers and their baggage to and from and between railroad depots, steamboat landings and hotels. The carriages are to call at houses and hotels for passengers, and charge for them and their baggage, only twenty cents each for any distance. There is no reason why the system should not work as well in New York as in Buffalo. There it has perfectly succeeded. Travellers and citizens unite in its praise.—*Albany Journal*

WATERING PLACE MORALS.—The Cheltenham (England) Guardian says that the Leamington magistrates have resolved to discontinue the prosecution of persons keeping houses of ill fame, of which there are 17 in Leamington, on the ground that *it was from all the gentlemen* away, and the town will be ruined.

SWEDEN AND DENMARK.—The Paris correspondent of the London Times says:

"The rumors alluded to with reference to the mission of General Canrobert to Stockholm are stated on good authority to be well founded, and no doubt appears to exist that he has succeeded in bringing about a military convention, by which it has been agreed upon, in virtue of which, Sweden will furnish a contingent next spring, conjointly with us in the event of peace not being made before then and has guaranteed to us the fortress of Carlscrone with our fleet in the north. It is also stated that an army, composed of French, English and Swedes, will be sent to Courland, so that both Austria and Prussia will be forced to declare themselves. The endorsement offered by Sweden to take this important step is not positively stated, but there can be no difficulty in believing that the restoration of Finland, so dear to the hearts of the Swedish people, is one of the principal conditions of such an Allied army occupying Courland. The result to foresee, and from that to joining the alliance. Thus Russia finds herself gradually hemmed in, and if she does not come to terms we may fully expect next year to see as great, if not greater than a Polish war occurred. The effect produced, on an Allied army occupying Courland, and from that to Finland, would have wholesome effect on Austria and Prussia may have quite as much as our present enemy.

It is alleged that the success of the mission to Sweden, the object of Denmark the possession of Courland by the allies and in event an anticipated rising in Poland, thrown the Prussian Court in panic, and hence the energetic measures will make for the restoration of peace.

THE HORSE OF ROTHSCHILD.—This horse has been going the rounds of the papers, as that the Rothschilds were worth eight hundred millions of dollars. A denial of the statement has been published, but it would seem to consist not of which bonds and property, the themselves possessed, not even a quarter of the range of that the last fall. It, themselves were be which has fifty millions, there, ies might was absolutely is a case

Ouratory.—Died, in Orono, Nov 2 Mr. John Brown, aged 54 years. Mr Bennoch was born in Liverpool, England. He came to this country with his parents, at an early season of his youth, and passed the remaining time of his earthly sojourn in the town on which he died.

Endowed by nature with a liberal share of her best gifts, and early trained to habits of promptness and dispatch, he possessed a business talent not often surpassed. Quick in discerning, correct in rating, prompt in deciding, his intellectual capacities proved alike efficient—whether engaged in private or public interests—both in design and execution. Mr. B is said to have possessed a rare ability in perceiving the frailties and follies and as well, the virtuties of those with whom he was brought, in his business pursuits, to mingle. Even where those defects were unsuspected by most others his keener glance saw them, as if by intuition. But while observant of the failings of others, he was not insensible to his own. What he also was not without fault he was deeply conscious, and wherein he was self-accused his survivors will be conscious in not

His friends were many. Numerous indeed, were the hearts that were touched with the news of his decease. The sentiment it brought, extending beyond the circle of relatives and associates reaches to the poor and destitute who have been objects of his benevolence, and whose deeds have he made thankful, by his silent, unpretentious charities. These are among his mourners. But more than all, his family are deeply stricken.

They strive to think their eyes no more That form those features loved shall trace But sweet is its from memory's store To call each fondly cherished grace

Could fictions hand have held his life he would not have passed away from earth But God does best. Dominion in his—submission is ours. He deposited acknowledged that dominion and sought its submission. His last thoughts were God's, his last look was prayer. May the event prove a sanctified dispensation of Divine providence to all who share in this bereavement.

Holloway's Ointment and Pills will cure any disease of the skin, of the longest standing. Witness Frederick Anderson of Yadkin South Carolina, suffered a long time from eruptions on the skin—his face, legs &c. were covered with little pustules and sores of a scorbutic character. For the cure of the sore and painful disease he tried a variety of remedies which failed to benefit him. At last he tried Holloway's Ointment and Pills which soon produced a favorable change for the better. Three weeks were sufficient to effect a complete cure. This famous Ointment will cure old sores and old wounds of twenty years standing.

From Kansas.

Later dates from Kansas, to the 1st inst, have been received, which state that 1500 to 2000 men, mostly armed with rifles and some thousand, passed through Lexington on the 29th ult, on their way to the Territory. A despatch to the St. Louis Democrat, same date, says that a party of 1500 men, principally from Missouri, had crossed the Kansas river at Hickory Point, on the 28th ult, and encamped on the south side of the river. They were commanded by Gen Reid, of Missouri, and Gen Coffee, of Kentucky. They had with them two pieces of artillery, and were fully armed and equipped for the field. They were reported to be on their way to Lawrence, and it was supposed that they intended to attack that place. Gov Reeder was at Lecompton, and had issued a proclamation calling upon the people to assemble at Lawrence, and to march to the assistance of the Governor. Gov Shannon was at Westport, Missouri, on the 30th ult, and had issued a proclamation calling upon the people of Missouri to assemble at Lexington, and to march to the assistance of the pro-slavery party in the Territory. Gov Shannon was also reported to be on his way to Lecompton. Col Titus, with a party of Missourians, had taken possession of Franklin, and had fortified himself there. From Kansas.

NEW YORK, 10th.

Mail dates from Kansas, are to Dec. 6th, which state that 400 or 500 men, accompanied by artillery and some thousand muskets, had passed through Independence, with the purpose of assisting in the maintenance of order.

A despatch to the St. Louis Republican, of same date, says Last night, about 11 o'clock, the pro Slavery party encamped on the Wakarusa, by the direction of Gov Shannon, arrested Gen Pomeroy, as he was passing the camps, on his way from Lawrence to this place and found important despatches from the east, about his person. They will probably hold him in custody until order is restored in the Territory. Threats have been made by a number of people in the neighboring towns to tear down the American Hotel at this place, under the impression that it belongs to the Emigrant Aid Society, but the citizens will defend it, as they know it does not. 200 men, three pieces of artillery, and 1,000 stand of arms from Liberty and Leecompte, passed through Independence to join Jones.

Pardoned.

Gov Clark has pardoned Kissane, who was last summer sentenced to State Prison for life, complicity in the burning of the steamer Martha Washington, near Cincinnati. The Governor had been assured by the Governors of Ohio and Indiana, that the ends of public justice would be subserved by the pardon of Kissane, and that without such pardon they would, in all probability be defeated. Several district attorneys in the former State, in their official capacity certified to the Governor that they required Kissane's testimony, as a witness, in several important cases, which have excited a great deal of interest throughout the west, among which were those growing out of the burning of the Martha Washington, in January, 1852, by which much valuable property was destroyed, a gross fraud attempted on several insurance companies, and a number of lives lost. Their application was also warmly seconded by many influential journalists in this State, and also in Ohio. On Saturday, in the Court of General Sessions, Mr. Richard Busteed moved to quash the indictment against Lyman Call the accomplice of Kissane, in the Chemical Bank forgery. The Assistant District Attorney opposed the motion, and the Recorder refused it. Last week Andrew Fellah, the accomplice of Kissane and Call who turned State's evidence against them, was discharged from custody. He had been detained in the Tombs as a witness over a year.

Launch of the Vanderbilt.

The mammoth steamship Vanderbilt was launched this morning at half past 9 o'clock in a handsome manner, notwithstanding the high water, and she is now in the balance dock, foot of Market street, where she will be coppered.

Scarcity of Salt.

Brig Mary Mems, Capt Hopkins, from Salt Key, arrived at this port yesterday, bringing dates to Nov 24th. The crop of salt was entirely exhausted. The Mary Means is 1500 bushels short of a cargo, and she received the last on hand. The British brig Victoria sailed a few days previously, for Baltimore, with only a part of a cargo. There is no salt at Grand Turk.

The Storm.

About 8 o'clock last evening, a very heavy gust of wind passed over this city, and extended to Williamsburg, where considerable damage was done. The steeple of the Catholic church on the corner of Lorimer and Remsen streets, was blown into the street. The roof of the house at the foot of South Third st., was blown off, and some small buildings were blown down.

The brig Caps Fear of N Y. was picked up by the hands of the Williamsburg Ferry Co. at the foot of South Sixth street, and made fast. No person was on board. The storm was occasioned by a gale from the north-west, meeting one from the south-west, over the city. During the gale the western end of the new railroad depot and ferry house, now being erected at Jersey City, was blown in, and the building considerably damaged.

Arrival of the Prometheus.

NEW ORLEANS, Dec 8.

The steamer Prometheus, from San Juan, with California dates to the 20th, arrived here to-day. She reports that the steamer Northern Light had left for N Y with $350,000 in specie.

Rumored Nicaragua Expedition, to join Walker.

The correspondent of the N. Y. Tribune, telegraphs from Washington that Government has received authentic information of the fitting out of an expedition in the U. S. to join Walker in Nicaragua. The President will issue a proclamation, immediately, warning those concerned against such infractions of neutrality and treaty obligations.

Wheeler's recognition of Walker's military government, is not authorized or accepted here.

ARRIVAL OF THE

Steamship Ariel.

THE ALLIES HARD PRESSED IN THE CRIMEA!

NEW YORK, Dec 9

The steamship Ariel arrived here at 9 o'clock this morning, having left Cowes on the morning of the 29th ult., bringing a copy of the Reconstruction of the London Times, of 28th. Consols were reported at 87½ to 88¼.

A letter from Hamesch reports a trifling engagement at Kertch.

The Allies were hard pressed, and were calling for reinforcements.

It was feared that Bomarsund would be attacked by the Russians when the river became frozen. The place is protected by a squadron of frigates and floating batteries.

The rumored Swedish alliance was doubted at Berlin.

The failure of the harvest in Russia was confirmed.

The U S Government is said to have given large orders to a Rhenish house, for the delivery next spring, of bullet proof harnesses.

Antwerp is to be defended by additional forts.

The garrison of Kars had received a supply of provisions from a captured Russian convoy.

The reported malady of Gen. Mouravieff was not confirmed.

DEPOT BUILDING BURNED. The station-house, wood-shed &c, of the Grand Trunk and Androscoggin R. R. at the Danville Junction, were destroyed by fire, on Saturday night, together with about 600 cords of wood.

The losses of the two Companies are estimated at $3000 each. The loss to the Grand Trunk Co was a wood shed about 200 feet long and 450 cords of wood. The Androscoggin Company lost a wood shed 100 feet long, 150 cords of wood, the turn-tab'e and the building which covered it. The Station House was owned by the two Companies. The Water Stations were saved. It is supposed to be the work of an incendiary.

A fire engine was started from Lewiston for the Junction, but it had not proceeded far when the alarm of fire was given in Lewiston, and the Catholic Church was found to be on fire. The engine returned and we learn that they found their hose badly cut when they attempted to play upon the Church. The fire at the Church was finally extinguished. What the damage was we have not learned.—Ladd.

GOW STONE'S

LIQUID CATHARTIC

OR

FAMILY PHYSIC,

This most important discovery ever made in Medical Science is now a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public

THE usefulness of such a medicine has been felt both by the head of families and physicians. Its advantages over all other forms of Pills or Powders must be obvious to every intelligent person. It operates mildly, effectually upon the system, and at the same time is so palatable that children will take it without difficulty. It is so agreeable to the taste that not only produces all the effect of the most powerful cathartic, but is invaluable as a tonic to the stomach, and a cordial to the nervous system, and however much deranged, and when all other means have failed

Read the following—it speaks for itself

Lawrence, June 9 1856

Mr. Gow, the undersigned, citizens of Lawrence having used the Vegetable Liquid Ointment prepared by Dr. Gow of this city and been benefited by it, feel it to be their duty to inform the public that the Doctor feel pleasure in offering our testimony to the Doctor claims to be used this Ointment have never found any other remedy that would relieve so speedily and unfailingly. His Ointment we have used in the most happy result after publicly declaring relief by the free use of Sarsaparilla, and other remedies.

Our experience fully justifies us in confidently recommending it as the safest, and the most effectual remedy as performing all it claims.

TESTIMONY FROM MAINE

Capt Daniel Abbott, Brooklin Maine, July 16, 1853, says "I was taken sick one year ago last April, upon my passage from Havana to Charleston. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite At last taking up a newspaper having your advertisement of Hoofland's German Bitters, I sent for some immediately This was about 10 o clock, at 11 o clock I took the first dose, and another at 6 o clock The effect was so rapid on me that I had a good appetite for supper and rested well that night, and the next day found me a well man—I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since. I have now given up going to sea and reside in this place where you should have an agency as you could sell large quantities of it

Jos H Hall & Co, Presque Isle, Aroostook Co, Maine, April 24, 1854, says "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters We think Mr Clark to be a man of veracity, and have no doubt of the truth of the story

Messrs Jos H Hall & Co—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years has been complaining of a pain in her side for six successive years, and about the first of January last was taken down and confined to her bed The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast From reading a number of cures performed by Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle* She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years—She feels no pain in her side or in any part of her body, and attributes her cure entirely to the German Bitters WILLIAM CLARK

Salmon Brook, Aroostook Co Me.

You should bear in mind that these Bitters are *entirely vegetable*, therefore possessing advantages over most of the preparations recommended for similar diseases
